NURSERY A SLAUGHTER HOUSE.

London, Sept. 19.—The arch-deacon of London, preaching in St. Paul's Cathedral today, referred to the recent Zeppelin raid on London.
"I need not go further back than last Wednesday," said he, "to tell you that battle has changed into murder. Speaking with all the restraint that is due from every preacher, as well as from the press, and with the knowledge and consent of the censor, I tell you that to one hospital alone were taken the dead bodies of little children of fifteen, ten, seven and five years, and of one little baby, so that the nursery became a slaughter house."
"Of the imperial murderer who allowed it, if he did not order it, all we can say is in the words of the Psalmist, the most awful punishment given to a man—I will set before thee the things that thou hast done."

FRENCH COURTESIES.

"In a trench at N," says Le Cri de Paris, "the articles of the enemy bombarded the French position all day and night. The French were downhearted, not because of this concert, to which they had become accustomed, but because they lacked aluminum to make souvenir rings. The shells which had been bursting over them for several days were all 105's, which did not contain any of it, and they waited in vain for 150's, which would give them the desired metal. What were they to do?"
"That's quite simple," said one of the men. "All that is necessary will be to write to them and ask them for some." Thereupon the following letter was written:
"Gentlemen, the Germans—Since yesterday we have been without aluminum. Instead of showering us with 105's could you not send us a few 150's? Thanking you in advance."
"Two men presented themselves to go and immediately throw the letter into the nearest German trench. They were prevented from doing so, but in some way the letter reached its destination, and the German sent the 150's asked for."

A Wonderful Antiseptic.

Germs and infection aggravate ailments and retard healing. Stop that infection at once. Kill the germs and get rid of the poisons. For this purpose a single application of Sloan's Liniment not only kills the pain but destroys the germs. This neutralizes infection and gives nature assistance by overcoming congestion and gives a chance for the free and normal flow of the blood. Sloan's Liniment is an emergency doctor and should be kept constantly on hand. 25c, 50c. The \$1.00 size contains six times as much as the 25c.

Health and Happiness Depend Upon Your Liver.

That sluggish flow of bile is what makes the world look so dark at times. Dr. King's New Life Pills go straight to the root of the difficulty by waking up the action of the liver and increasing the bile. Dr. King's New Life Pills cause the bowels to act more freely and drive away those "moody days." 25c a bottle.

"What do you think of the acoustics, Mrs. Nurich?" whispered her neighbor.

Every Home Needs a Faithful Cough and Cold Remedy.

When seasons change and colds appear—when you first detect a cold after sitting next to one who has sneezed, then it is that a tried and tested remedy should be faithfully used. "I never wrote a testimonial before, but I know positively that for myself and family, Dr. King's New Discovery is the best cough remedy we ever used and we have tried them all." 50c, and \$1.00.

Farmers and Sunday Schools

In a recent address to an open meeting of farmers, Assistant Highway Commissioner Scott, remarked that he had heard a brother say that since good roads had come his Sunday School could keep open all the year. These merely material improvements should precede the mental ones. The farmer should not be satisfied only with better houses, better roads and better stocks, but he should desire better social and educational advantages and a better community life.—James River Clarion.

Newspaper Man Recommends It.
R. R. Wentworth, of the St. James, (Mo.) News writes: "A severe cold settled in my lungs. I feared pneumonia. Foley's Honey and Tar straightened me up immediately. I recommend this genuine cough and lung medicine. Right now thousands of hay fever and asthma sufferers are thankful for this wonderful and soothing remedy."

Then and Now.

A young woman whose husband is on the stock exchange recently awakened to the fact that he was quite sportily inclined. One evening the professor's wife, who lived quite near, ran in to make a call. During the call the young wife of the stock broker remarked, rather plaintively: "I wish I knew where Jack was?"
"I presume, dear," said the professor's wife primly, "you mean you wish you knew where he is?"
"Oh, no, I don't," replied the young wife, "I know where he is. He is upstairs in bed with a terribly bloody nose and a raving headache. I want to know where he was."—New York Times.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous membrane of the Eustachian Tube. When this tube is inflamed you have a running ear or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."
I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.
At last, my mother advised me to take Cardui, the woman's friend. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."
If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

NEWS NOTES OF POCAHONTAS.
Arthur Cheatam, colored, who has a restaurant in the Building of the Bluestone Junction, erected by A. L. Calhoun, was seriously burned by gasoline last Saturday, while filling up his tank for the gasoline burner. He had filled a bucket of gasoline and was passing it near the blaze the gasoline caught fire. He attempted to throw it out the door, but the flames reached his clothing and in an instant he was in a blaze and so was the buoonooooooooooooo blaze and so was the building. The damage to the building will probably not amount to much, but Cheatam was horribly burned. He was brought to the hospital on a passing train and his burns treated by Drs. Haller and Stuart. He is still living but said to be in a critical condition.

Now that the matter of the politics of our esteemed county treasurer has been determined, (referring to the letter of attorney Bob Crockett to W. C. Hendricks, of Graham), we hope it will have no trouble for the Graham Daily News editor to make up his mind which of the candidates to support in the present campaign for the office of county treasurer.

The Next Best Thing to the Pine For Colds is—
Dr. Bell's Pine-Tar-Honey, which goes to the very root of cold troubles. It clears the throat and gives relief from that clogged and stuffed feeling. The pines have ever been the friend of man in driving away colds. Moreover, the pine-honey qualities are particularly effective in fighting children's colds. Remember that a cold broken at the start greatly removes the possibility of complications. 25c.

A SOCKDOLAGER.

(The Daily Telegraph.)

When Virginia and West Virginia papers engage in a rangle it is generally brought to an end before coffee and pistols are called for, by the former saying: "Shut up and pay us what you owe us."

That is intended as a clincher and it generally is. Of course, its reference is understood. West Virginia owes Virginia thirteen million dollars, according to a decision of the federal supreme court, and she is showing neither effort nor inclination to hand over the cash. The problem isn't at all, as a paper now and then foolishly hoots: "How is West Virginia going to pay the debt?" but: "How is Virginia going to enforce the payment of the debt?" It is just to add to the oy of back yard neighbors that the Old Dominion papers are ever sneering and nagging about the debt, it riles the mountain State fellows so they just go dumb.—Portsmouth Times.

As usual with out-of-gear papers the Portsmouth Times seems to think we owe the money to Virginia. We do not believe we owe it at all. There is a judgment, however, against West Virginia, but when anything is paid on that, it will go to the bondholders of Virginia bonds, which court says West Virginia owes. West Virginia could raise the money and probably will have to do so, but no one is withholding us for it except some newspapers who would not get any of it, and who are apparently better collectors for the state than they are for themselves, according to our knowledge of the business. It does not rile the boys. What the Times thinks it is the condition it calls riling is simply the way we laugh over here.

His s!Rest Was Broken.
O. D. Wright, Rosemont, Neb., writes: "I was bothered with pains in the region of my kidneys. My rest was broken by frequent action of the kidneys. I was advised by my doctor to try Foley's pills and one 50c bottle made a well man of me." They relieve rheumatism and backache.
